

2010 Region 8 Contest

by Fred Hermanspann

This year's Region 8 contest in Ephrata was another successful event for pilots and organizers alike. There were 6 contest days with some tight competition which was only decided on the last day. For a detailed description read Noel's blog on the SSA website.

In the end Noel finished a strong second in the Sports class – an amazing achievement after making his first XC just a year or two ago. So, congratulations, we are looking forward to more success stories!

Other local pilots with strong performances were Mike Newgard , winner of the 15m class, Steve Northcraft, third in the 15m class, and Keith Purves, fourth in Sports class. As usual, it was as much a social as a competitive event and confirmed Ephrata's standing as a major competition site.
